**RESPONSE TO REQUIREMENT FOR RESTRICTION
AND ELECTION OF A SINGLE INVENTION WITH TRAVERSE**

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the Office Action of May 15, 2008, applicants elect to prosecute claims to the Group II invention, Claims 15-18 drawn to a process for making a ubiquinone food composition. The election is made with traverse, for the reasons hereinafter set-out.

The ubiquinone enriched-foods of Claims 1-14 are obtained by the production method according to elected Claims 15-18. In the ubiquinone enriched-foods, precipitation and/or localization of ubiquinone are/is prevented, as recited in Claims 19-21. Thus, the Groups II and III, or II and I are linked to each other and all the claims are involved in a single inventive concept.

Accordingly, it is respectfully submitted that those claims should be examined in a single application.

Respectfully submitted,

/Richard G. Lione/

Richard G. Lione
